

*How **smart** is your network?*

C1000

Features

- Remote site monitor featuring 32 to 256 discrete collection input points
- 4 to 32 discrete control outputs
- Industry standard 50-pin rear access connectors
- Wiring connections references permanently displayed on unit
- Front panel dip-switch configuration
- TBOS, TABS host reporting protocols available
- Expansion port serves as a pass-through TABS or TBOS data interface
- Supports both RS-422/485 standard host interface
- Optional RS-232 interface
- Optional internal 202T/V.23 modem
- Can be mounted in 19" or 23" standard rack
- -24/-48VDC standard operation
- One year warranty
- Unlimited customer support and user manual
- Wire wrap, cables and assembly tools available

The Westronic **C1000** provides the most space efficient, cost effective way of deploying discrete telemetry to your **surveillance** network. The **C1000**'s high-density design is the smart alternative to the **WS1000** for the user who requires up to 256 discrete alarm collection and 32 discrete control outputs in a single 1VU height rack space.
